Responsible AI framework

Questions for framing and monitoring

Usefulness

- ☐ What precise problem does AI improve?
- ☐ What baseline method is used for comparison?
- ☐ When should it not intervene?

Data and rights

- ☐ Is data provenance known?
- ☐ Is personal data necessary and protected?
- ☐ Are affected people clearly informed?

Control

- ☐ Are critical errors tested?
- ☐ Can a person review and correct the outcome?
- ☐ Are cost, drift and incidents monitored in production?

Record the answers, owners and next review date.
