DELIWRAPP & CO

Production readiness checklist

Prepare, deploy and verify

Before

- ☐ Back up database and media.
- ☐ Validate migrations and dependency compatibility.
- ☐ Prepare rollback and announce the change window.

During

- ☐ Record the deployed version.
- ☐ Apply migrations once.
- ☐ Clear caches and check workers and scheduled tasks.

After

- ☐ Test critical journeys in both languages.
- ☐ Check errors, performance and email delivery.
- ☐ Record the outcome and close or trigger rollback.

Assign an owner to every check and retain evidence of validation.
